Web Development: Web Designing, Responsive Frontend Architecture, RESTful Concepts

Core CS Concepts: Data Structures & Algorithms (DSA), Software Engineering, Object-Oriented Programming (OOP)

Soft Skills: Analytical Problem Solving, Technical Communication, Adaptability, Team Collaboration, Quick Learner

PROJECTS

Music Organizer *Python*

- Built a desktop application to organize and manage local music libraries by sorting, tagging, and searching audio files.
- Implemented features to read file metadata (artist, album, genre) and auto-organize files into dedicated folder hierarchies.
- Designed an intuitive and responsive interface for seamless browsing and playing tracks directly from the organized library.

Portfolio Website *HTML, CSS, JavaScript*

- Built a personal portfolio website using HTML, CSS, and JavaScript to show my projects, skills, and achievements.
- Made the website work well on mobile, tablet, and desktop screens with a clean and simple design.
- Added easy navigation and interactive buttons and links so visitors can move through the site smoothly.

CERTIFICATIONS

- AI for Beginners — HP LIFE — April 2025
- Learn Advanced C++ Course Online — Simplilearn SkillUp — May 2025
- SQL Bootcamp — LetsUpgrade — March 2026
- C++ Bootcamp — LetsUpgrade — June 2026
- Python Essentials 1 — Cisco Networking Academy — November 2025

ACHIEVEMENTS & ACTIVITIES

- Solved 350+ core algorithmic problems across LeetCode, HackerRank & GeeksforGeeks focused on arrays, strings, and searching.
- Active participant in departmental hackathons and competitive coding events at MPEC.
- Engaged in peer coding circles to assist classmates with DSA fundamentals and programming logic.
